Hi Reynard Corporation,

I was wondering if it would be possible to get the data for an old order we placed with you for custom AR coating vacuum viewports? I'm currently writing my PhD thesis and I am considering including a figure of the AR coatings on our viewports for future reference.

If that's possible, our original order details are as follows (see attached document):

- Customer Name: Rice University (the order was placed by Francisco Camargo, [fc9@rice.edu](mailto:fc9@rice.edu), when he was corresponding with Robyn Miller, [robyn.miller@reynardcorp.com](mailto:robyn.miller@reynardcorp.com), around Aug. 2013)
- Customer PO: PA77056
- Lot Number: 3213-01
- Reynard Corporation Order Number: 25853

The attached scanned copy contains the transmission/reflection data we received from you but those are the ones I'd like the data for so that I can make a digital plot.

Thank you in advance for your time and help,

Hi Roger,

We may be able to help with that. Robyn or Stephanie, cc'd, will try to track it down.

Might take a week or so, given our current workload.

Thanks

Chris

Great, thanks for the reply Chris. No rush on the data -- I figured I'd include it if it's available but it's not a big deal if I don't.

Roger,

Attached is what I believe to be the data related to this order. Seems everything matches up to your CofC and paperwork. It is likely that this measurement is made on a witness sample, and may not be the same window material as your viewports. I would expect the reflection to be similar on the viewports.

Best Regards,

Robyn Miller
